RECONFIRM - Change of Deadline for Bid Submission: Given the unprecedented times concerning the pressures on materials, supply chains, product increases, Plymouth County will extend the following dates of all 2023 Vehicle Bid IFBs. All Bids must be submitted in a sealed envelope on or before 2:00 p.m. on Wednesday, September 14, 2022, at the Plymouth County Commissioners' Office, 44 Obery Street, Plymouth, MA 02360. No Bids shall be accepted or opened which arrive after this date and time for any reason. The Plymouth County Commissioners will open all Bids at 2:00 p.m. on September 14, 2022, in their Office on 44 Obery Street, Plymouth, MA, at which time and place bids may be examined by the public.

RECONFIRM All vehicles on Tab One of the 2023 IFB Price Spreadsheet must have a price listed unless the vehicle is not available from the manufacturer: Plymouth County has been informed from several vehicle manufacturers that some vehicles will not have fleet allocation at the time of the bid response, or the order windows have already passed. We have also been informed that some vehicle models will lack the fleet concessions that are historically provided. In the case that these examples apply, please provide a price (perhaps MSRP) at the time of bid and you will have the opportunity to adjust the price if/when the fleet concession is offered from the manufacturer or vehicles become available. In the case of delayed allocation, please provide a statement supplied by the manufacturer regarding the timeline of availability if provided.

2023 IFB Price Spreadsheets have been modified for Ford and Dodge Chrysler Jeep. Honda and Nissan Spreadsheets remain the same: New 2023 IFB Price Spreadsheets are be emailed to all requesters. The new spreadsheets labelled as Addendum 2 is the price sheet that MUST be submitted with the bidder's package. Plymouth County has added three vendors (Muncie, TBEI/DuraClass, and Tymetal) to Tab #3 on the Ford and Dodge Chrysler Jeep spreadsheets, line 290 through 292. The Honda and Nissan spreadsheets remain the same.

Thank you!
